1. Executive summary

Regulation (EU) 2020/873 of the European Parliament and of the Council of 24 June 2020 amending Regulations (EU) No 575/2013 and (EU) 2019/876 as regards certain adjustments in response to the COVID-19 pandemic (CRR – Capital Requirements Regulation - 'quick fix') was published in the Official Journal of the EU (European Union) on 26 June 2020. The CRR 'quick fix' is part of a series of measures taken by European institutions to mitigate the impact of the COVID-19 pandemic on institutions across EU Member States. In addition to the flexibility already provided in the existing rules, the CRR 'quick fix' introduces certain adjustments to the CRR, including temporary measures, intended to enhance credit flows to companies and households, thereby supporting the EU's economy.

In addition, the CRR 'quick fix' introduces amendments to regulatory requirements that have an impact on supervisory reporting, mainly on the supervisory reporting frameworks v2.9 and v2.10.

The EBA is issuing these guidelines to provide clarification and help institutions implement the reporting and disclosures that are linked to the regulatory measures adopted in the context of the pandemic.

These guidelines clarify how to report the CRR 'quick fix' amendments that have an impact on templates related to the leverage ratio, own funds and credit risk. The clarification provided in these guidelines will apply until the reporting reference date of 31 May 2021 and until and including the last disclosure reference date prior to the 28 June 2021.

Due to the urgency of the matter, the specific focus of these guidelines on COVID-19 pandemic-related measures and the need to provide credit institutions with the maximum time possible to prepare themselves for this additional reporting and disclosure requirement to be imposed by competent authorities in compliance with these guidelines, the EBA decided not to carry out public consultations or a cost-benefit analysis in this case. The EBA has notified the Banking Stakeholder Group (BSG) of its intention to issue these guidelines but has not requested the BSG's advice.

2. Background and rationale

1. Regulation (EU) 2020/873 of the European Parliament and of the Council of 24 June 2020 amending Regulations (EU) No 575/2013¹ and (EU) 2019/876² (CRR 2) as regards certain adjustments in response to the COVID-19 pandemic (CRR 'quick fix') was published in the Official Journal of the EU on 26 June 2020³. The CRR 'quick fix' is part of a series of measures taken by European institutions to mitigate the impact of the COVID-19 pandemic on institutions across EU Member States. In addition to the flexibility already provided in the existing rules, the CRR 'quick fix' introduces certain adjustments to the CRR, including temporary measures, intended to enhance credit flows to companies and households, thereby supporting the EU's economy. The adjustments that have an impact on reporting frameworks v2.9 and v2.10 and on disclosures are as follows:
 - frontloading from CRR 2 the possibility of temporarily excluding certain exposures to central banks from the calculation of an institution's total exposure measure (Article 500b of Regulation (EU) No 575/2013);
 - frontloading from CRR 2 the revised calculation of the leverage ratio exposure value of regular-way purchases and sales awaiting settlement to ensure that the treatment properly reflects the inherent leverage associated with those trades (Article 500d of Regulation (EU) No 575/2013);
 - extending by 2 years transitional arrangements for mitigating the impact on own funds of the introduction of IFRS 9 (Article 473a (8) of Regulation (EU) No 575/2013);
 - frontloading from CRR2 the more favourable prudential treatment of SMEs (Small and medium-sized enterprises) and infrastructure exposures, as well as loans to pensioners and employees (with a permanent contract) backed by the borrower's pension or salary (Articles 123, 501 and 501a of Regulation (EU) No 575/2013);
 - introducing temporary prudential filter for unrealised gains and losses measured at fair value through other comprehensive income, corresponding to exposures to central governments, to regional governments or to local authorities referred to in Article 115(2)

¹ Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012 (OJ L 176, 27.6.2013, p. 1).

² Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 575/2013 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) No 648/2012 (OJ L 150, 7.6.2019, p. 1).

³ Regulation (EU) 2020/873 of the European Parliament and of the Council of 24 June 2020 amending Regulations (EU) No 575/2013 and (EU) 2019/876 as regards certain adjustments in response to the COVID-19 pandemic (OJ L 204, 26.6.2020, p. 4).

of Regulation (EU) No 575/2013 and to public sector entities referred to in Article 116(4) of Regulation (EU) No 575/2013, excluding those financial assets that are credit-impaired, during the period from 1 January 2020 to 31 of December 2022.

2. The objective of these guidelines is to provide institutions with the necessary clarifications on how to apply the Commission's Implementing Regulation (EU) No 680/2014 in its current 2.9 and 2.10 versions to report elements of credit risk, own funds and leverage ratio set out in the CRR 'quick fix', as well as how to apply the Commission Implementing Regulation (EU) 2016/2005 to disclose elements of the leverage ratio set out in the CRR 'quick fix'.
3. Due to the urgency of the matter, the specific focus of these guidelines on the COVID-19 pandemic-related measures and the need to provide credit institutions with the maximum time possible to prepare themselves for this additional reporting and disclosure requirement to be imposed by competent authorities in compliance with these guidelines, the EBA decided not to carry out public consultations or a cost-benefit analysis in this case. The EBA has notified the Banking Stakeholder Group (BSG) of its intention to issue the guidelines but has not requested the BSG's advice.
4. The guidelines comprise a set of instructions covering the impact of the CRR 'quick fix' on the following reporting and disclosure requirements:
 - reporting of credit and market risk and own funds;
 - reporting of leverage ratio;
 - disclosure of leverage ratio.
5. The reporting requirements clarified by these guidelines will apply from the date of their publication until the reporting reference date of **31 May 2021**, inclusive.
6. The disclosure requirements clarified by these guidelines will apply from the date of their publication until and including the last disclosure reference date prior to the disclosure reference date of **28 June 2021**.

⁴ Commission Implementing Regulation (EU) No 680/2014 of 16 April 2014 laying down implementing technical standards with regard to supervisory reporting of institutions according to Regulation (EU) No 575/2013 of the European Parliament and of the Council (OJ L 191, 28.6.2014, p. 1).

⁵ Commission Implementing Regulation (EU) 2016/200 of 15 February 2016 laying down implementing technical standards with regard to disclosure of the leverage ratio for institutions, according to Regulation (EU) No 575/2013 of the European Parliament and of the Council (OJ L 39, 16.2.2016, p. 5).
